Material :

High grade cold rolled steel
All materials comply to ROHS standard

Finish :

5 stage iron phosphate pretreatment
followed by tough scratch resistant powder
coat paint

Color :

Low Gloss Black

SPEC SHEET MODEL 8800

Application

The Cyberack 8800 is designed for networking equipment and cabling installations. The wide frame and cable management features allow for the configuration of a range of equipment including routers, hubs, and bridges as well as other rack mounted or free standing devices. This versatility makes the 8800 an excellent solution to mixed installation environments.

Internal Useable Height (mm)

UNIT REF.	A	B
